CNT International Consulting GmbH founds a subsidiary company in Poland

Warszawa (pts/17.07.2008/13:45) - With the foundation of the subsidiary CNT Poland Consulting Sp. z o.o., the SAP consulting company CNT International Consulting GmbH based in Vienna expands its range of services to the new EU members and other CEE countries. CNT Poland Consulting Sp. z o.o. was registered in December 2007 in Warsaw, Poland. The business focuses on SAP consulting and development, support and training and offers its services to local and international customers in Poland. The company portfolio contains SAP "All-in-One" solutions for a wide range of companies in machinery, engineering and construction, including small and mid-size companies. Grzegorz Rogalinski, General Manager of SAP Poland welcomed CNT in "Partner Edge" Ecosystem and wished all the best in company development on the Polish market.

Steffen Karpinski, with a background in Business Development and Sales Management with SAP, is Managing Director of the CNT subsidiary company. While working with SAP, Karpinski's main focus has been "New Technologies", industry solutions for telecommunication, utility and transport companies. Karpinski, who has also been Key Account and Business Development Manager with companies such as GROUP 4 Securitas and Honeywell, is looking forward to the new challenge.

Waldemar Bar, is a Country Director. He finished computer science faculty and has more than 20 years IT experience in ERP systems sales, implementations, IT services delivery and project management, with more than 10 years experience in leading positions in SAP business in Poland at international companies. Among others, he was for 8 years on the position Managing Director and Vice President, working for international Austrian SAP consulting company - Varias/EFP in Poland.

CNT International Consulting GmbH and CNT Management Consulting GmbH

CNT Management Consulting was founded in Vienna in 1999 and is owned 100% by the five original members. In a very short time, CNT has managed to rise to one of the leading consultant companies in the SAP business; meanwhile CNT is one of the Top 10 in the business. The use of reliable information and communication technologies has become a must. CNT offers integrated SAP solutions that include conceptual design, layout and implementation. The link-up of mobile business solutions and non-SAP systems are some of them. With a constant focus on processes, CNT finds the ideal solution for their customers. The company currently employs more than 100 people.

In September 2006, CNT Management Consulting GmbH founded CNT International Consulting GmbH which offers SAP solutions and consulting/ development/ training services with focus on:

- * Central and Eastern European countries (CEE)
- * Industry Solution for Machinery, Engineering and Construction
- * Special Expertise Partner for CRM, SRM and NetWeaver/ BI
- * Migration, Integration and International Roll-Out Projects
- * Set-up of local software development and SAP consulting resources
